

Library Storage/Angle Iron Racks

Library Trolley

The **ARCHIVER Library Trolley** has been designed with the end user in mind. Its rounded handle situated at the top of either end provides users with a convenient yet safe handhold for pushing the trolley around.

Standard Dimensions and Specifications

	Height (mm)	Width (mm)	Depth (mm)	Number of tiers
Double Sided Shelving	1980	910	533	5
Single Sided Shelving	1980	910	330	5
Library Trolley	1015	915	480	3

Library Shelving

The ARCHIVER range of library storage is designed to be easily installed, dismantled and relocated. The shelving is extremely sturdy and each shelf can take loads of up to 40 kg.

All library shelving come with:

- Wood or metal end panels
- Identification tags on shelving and end panels
- Cross Bar for increased stability
- Book support

Angle Iron Rack

Standard features of the ARCHIVER angle iron racks are:

- Pre-treatment of all metallic parts with rust resistant coating before painting.
- Coated with epoxy powder paint which is baked to a smooth and scratch resistant finish.
- All shelves are designed to take an evenly distributed load of 100kg.

The angle iron racks are available only in a graphite colour.
