Along with their rustproof quality, ABS Plastic Lockers are ideal for any area near water or humidity

ABS Locker Size Chart

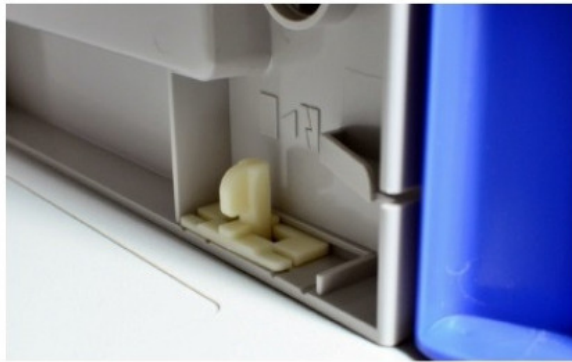

2. Modular Design

ABS Plastic Lockers are Modular Lockers, and can be assembled in numerous configurations.

3. Patented Boltless Design

Boltless Design is extremely durable compare to other Plastic Lockers Replica which uses bolts and nuts to assemble together. Once the plastic screw thread is stripped or Damaged, the locker cannot be repair. Such Lockers also has lesser load bearing.

4. Concealed hinge

Attention has been place on the door hinges of the lockers, this is where most PVC and non ABS Plastic Lockers fail and break.

ABS Plastic Lockers has incorporated heavy duty concealed hinges. Unique Concealed Hinge design deters damage from vandalism.

5. Difference choice of locking options, cater to your individual requirements.

6. Concealed mounting point

Plastic Lockers are made from modular concepts. Lockers can be stack on top of each other.

The mounting on the top of the lockers allows each compartments to be stack on each other.

However the top of the lockers are always most vulnerable to tampering and break-in.

ABS Plastic Lockers put in place flush strip to cover up these mounting to prevent intentional intrusion.

7. 5 Colors Selection

-  Green
-  Maroon
-  Beige
-  Yellow
-  Blue
